Section 4					
		More detailed; Time for hands on should be more(30-40min); for session 1 clearer slides needed to be viewed from back, alternately upload slides and to be accessed from PC; for session 3 more emphasis to be given on kind of analysis/reports rather than going too much into depth of the particular area.			

Comments and suggestions :- Please include if the talk met your expectations. How do you think can these workshops be improved further?	More time for hands on experiences (2)
	If all the related topics can be taken in a workshop as a series
	White space analysis has been introduced, need to learn in detail
	Interaction between other participants
	All well organized
	Assignments can be more ellaborative with discussion sessions
	By bringing in more experts
	Time to analyse live projects of your own and get feedback from experts
Presentation font is too small and not focused full screen	
Please suggest a topic on which you wish to have a workshop on ?	An advance workshop (follow-on) in which participants would use paid s/w at VC on their ovm love area to get a feel; A course on process of patent preparation for inventors (technologists).
