

Organized by:

## 7<sup>th</sup> Pune Inventors Network (PIN) meet on Software Patentability in the US following the Alice v CLS Bank decision by the US Supreme Court

**Date: 18<sup>th</sup> February 2015 | Time: 3:30 to 5:30 PM**  
**Venue: Training Room, 100 NCL Innovation Park**

Talk to be delivered by:

**Dr. Kalpesh Upadhye**

### About the speaker

Qualifications: Ph.D. in bioengineering from University of Pittsburgh, bachelor's degree in engineering physics IIT, Bombay

**Dr. Kalpesh Upadhye** is a patent agent. He will be joining the practices of NSIP Law in Washington, DC in March, 2015. As a patent agent at Pillsbury Winthrop Shaw Pittman, LLP, Dr. Upadhye worked on various patent-related matters including prior art analysis, patent portfolio analysis, due diligence, patent drafting and prosecution as well as post-grant proceedings. His areas of focus include mechanical and electromechanical devices, drug delivery, biosensors, medical devices, neuroscience, pharmaceuticals, biomaterials, nano-scale materials, composites and alloys, semiconductors, thin film devices, solid state devices, electro-optic devices, microfluidics, micro- and nano-fabrication, as well as magnetism and superconductivity.

Prior to joining Pillsbury, Dr. Upadhye served as technical specialist in the Pittsburgh office of Pepper Hamilton, LLP, where he drafted and assisted in prosecution of numerous patent applications relating to pharmaceutical compositions, recyclable materials, meta-materials, electro-optic devices, flexible electronics, and semiconductor fabrication methods. Before that, he worked as a post-doctoral research associate at the University of Pittsburgh developing calcium phosphate-organic hybrid nanoparticles for targeted non-viral gene delivery.

**Free talk but prior registration is required**
