## INTRODUCTION

“Patents are territorial” which means that there is no world patent that exists. Thus, if the innovator has procured the patent in one country say “Country X”, then he shall not be able to stop the infringer from making, using, selling, offering for sale or importing the invention in “Country Y”. Thus, the rights conferred upon by the patent are restricted to the territory/ region, so an Indian patent does not confer any rights outside India. Hence, once the innovator is ready with his invention, he would have to file the patent application in the home country followed by filing the patent application in all the others countries where he wishes to protect his invention.

PCT (Patent Cooperation Treaty) facilitates patent protection for an invention simultaneously in multiple countries. So, PCT application (also known as an international application) needs to be filed when patent protection is required in several countries for the same invention.

Thus, this workshop takes the participants through the entire process of filing an international patent application through PCT system. The workshop also has a session wherein one of the innovator shares his experience of filing an US national phase application on his own. The workshop is meant to be introductory and will not be able to cover the topics in-depth.

## OBJECTIVE

Learn how to process an international patent application through PCT route enabling the innovators to protect their invention in multiple countries

## WHO IS IT FOR?

- Members of PIN
- Innovators/ Scientist / Students
- IP professionals
- Entrepreneurs interested in IP portfolio creation and management

#### ABOUT PUNE INVENTORS NETWORK (PIN)

The Pune Inventors Network is a forum for inventors from Greater Pune region to meet, interact, share experiences/ learning with each other.

The Pune Inventors Network (PIN) is hosted by IP Facilitation Center - which is a non-profit project of the Venture Center (technology business incubator hosted by NCL) and Ministry of Micro, Small and Medium Enterprises, Government of India.

**For more information about PIN, visit [www.ipface.org/inet/](http://www.ipface.org/inet/)**

#### ABOUT THE ORGANIZERS

##### **IPFACE (IP Facilitation Center)**

IPFACE aims to promote awareness and adoption of intellectual property rights amongst entrepreneurs and MSMEs in India while also making accessible high-quality IP services & resources. IPFACE is a project of the Venture Center supported by the Ministry of Micro, Small and Medium Enterprises, Government of India and National Chemical Laboratory, Council of Scientific and Industrial Research, India.

**For more information about IPFACE services, visit [www.ipface.org](http://www.ipface.org)**

#### ABOUT THE SPONSOR

Biotechnology Industry Research & Assistance Council is a new industry-academia interface and implements its mandate through a wide range of impact initiatives, be it providing access to risk capital through targeted funding, technology transfer, IP management and handholding schemes that help bring innovation excellence to the biotech firms and make them globally competitive.
