INTRODUCTION AND OBJECTIVE

Patents help inventors and companies protect their inventions. Patents have become a key component of today's knowledge economy. Increasingly, students, researchers and practicing scientists and engineers are expected to be aware of patents and know enough about patents to carry out their responsibilities effectively. This workshop aims to provide an introduction to IPR to the researchers at S.M. Joshi College, Hadapsar and also the importance of IP, patents specifically, in research as well as business. The workshop will also aim at providing the insights into Patentability as well as patent filing and prosecution which includes process of application of patent, drafting of patent applications and prosecution process for Indian and PCT application.

PROGRAMME OUTLINE

- Introduction to intellectual property and more specifically, patents.
- Patentability criteria and exceptions
- Filing process and Timelines: Indian Application, Conventional Application and PCT Application
- Types of specifications, contents of specifications
